# About Us

Hunar India manufacture all types of Elevators. Our Products cater to Residential, Commercial, Industrial and Hospital needs. Our Products are designed to offer superior performance under a wide range of environmental conditions in India, keeping in mind harsh climates, uncertain power supply and specific applications. Our Products are designed with emphasis on comfort, Safety & Speed. We at Hunar India Elevators incorporate modern technology to keep pace with the changing environmental and vertical transportation needs of the 21st century. With High Quality Material, Trained and Experienced Manpower we provide Quality Elevators and Excellent after sales Service.

Our Core business is moving people up & down in their buildings with safety & comfort in a best manner. With three decades of elevator business experience & expertise is emerging as a leading supplier in the niche market of high speed elevators.

# HUNAR INDIA

## Hunar India - Geared Elevator

Hunar India delivers the highest standards to engineering, comfort and durability. Featuring a state of the art Geared Traction Machine, which can be housed separately in the elevator machine room, Hunar India is a result of years of research and technological innovation.

Hunar India comes with geared Traction machine made of high standard Chromium molybdenum Steel worm and Bronze gear.

State of the art micro controller technology with parallel communication protocol for precise control and utmost passenger safety.

SMT-Surface Mount Technology enhances the reliability and Scalability.

Uses PWM Dead Time Compensation technology and dynamic PWM Carrier Modulation technology to reduce noise and motor energy loss.
